### **Report on Free Health Check-Up Camp**

A **Free Health Check-Up Camp** was organised on **8 September 2026** at **Dudhnoi College** by the **Internal Quality Assurance Cell (IQAC), Dudhnoi College**, in collaboration with **ICMR, NIHR, Dibrugarh**. The camp was organised with the objective of promoting health awareness and facilitating access to basic health screening services among the members of the college community. A range of health screening services was provided during the camp, including Complete Blood Count (CBC), Hemoglobinopathy Screening for HbE, Sickle Cell Disease,  $\beta$ -Thalassemia and other variants, Diabetes Screening, Blood Pressure Monitoring, Body Fat Analysis, Height Measurement, and other basic health assessments. The camp received an encouraging response from the college community. Nearly 170 members of Dudhnoi College, including teaching staff, non-teaching staff and students, availed themselves of the free health check-up services. The participation reflected the importance of regular health screening and preventive healthcare among students and staff. The health check-up camp continued throughout the day, allowing members of the college community ample opportunity to avail themselves of the services. The programme was a meaningful initiative towards promoting health consciousness, early detection of health conditions and preventive healthcare within the college community.
